

# FRANCO WANSEÉLE

## SOFTWARE ENGINEER

Uruguay (GMT-3) | (+598) 094 315 936 | franco.wanseele@gmail.com | linkedin.com/in/francowanseele | github.com/francowanseele

Software Engineer with 7+ years of experience building web applications from scratch and delivering scalable solutions for US clients. Strong focus on coding with best practices, driving technical decisions, and collaborating closely within cross-functional teams. Experienced in leveraging AI tools to maximize development efficiency while maintaining strict quality standards.

### Experience

#### Software Engineer

Dualboot Partners - 2021 - Present

- Develop and deliver high-quality web products for US clients, collaborating closely in cross-functional teams (PMs, designers)
- Drive technical decisions, mentor developers and contribute to Agile development using SCRUM
- Integrate AI tools into daily coding to maximize productivity, critically evaluating the output to maintain high standards

#### Product owner - Full stack developer

Devsys - Compliance Technology - 2018 - 2021

- Plan Sprints, manage Backlog and create user stories using SCRUM
- Development with .NET MVC, JavaScript, and SQL Server

### Projects

#### ADA - Entrenamiento Auditivo (funded by CSE)

2021 - 2023

**Project funded by the Sectorial Commission of Education (CSE)**, focused on developing the ADA mobile application and implementing it in courses at the Facultad de Artes. Focused on the random generation of musical dictations, presented as evaluation exercises for teachers and music students.

**Role:** Development with React Native / NodeJS / PostgreSQL / Azure server

#### Self-Regulated Learning Analytics (funded by CSIC)

2023-2024

Project focused on integrating the EVA platform with the ADA mobile application to help university students regulate their learning, with a pilot study involving music students.

### Technical skills

**Languages:** JavaScript, TypeScript, C#

**Frontend:** React, Next.js, Redux, Tailwind CSS

**Backend & Database:** Node.js, .NET (Core), PostgreSQL, Microsoft SQL Server

**Cloud & DevOps:** Azure, Docker, Git

**Leadership & Methodologies:** Technical Leadership, Agile/Scrum, Team Mentoring, Code Reviews, Figma

### Education

Software Engineer

UDELAR 2013 - 2021

Business English - Vantage Level B2

Cambridge English exam - 2022
